ONEFETNA MANIFESTO

2026-2028

Ezhilan Ramarajan, President Candidate
OneFeTNA Team

Stronger Together. Weaker Divided. OneFeTNA.

OneFeTNA Manifesto

2026-2028 | One Vision. One Community.

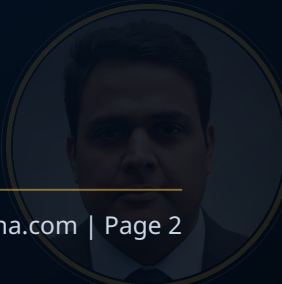

VISION

OneFeTNA 2026-2028

Stronger Together. Weaker Divided.

- OneFeTNA is our commitment to bridge gaps between people, groups, regions, Sangams, generations and viewpoints.
- We will connect amidst differences, heal after elections and bring capable people together for the larger good of FeTNA.
- Different views, one purpose. Different Sangams, one community. Different teams, OneFeTNA.

President Candidate: Ezhilan Ramarajan | OneFeTNA Team |

OneFeTNA Manifesto

2026-2028 | One Vision. One Community.

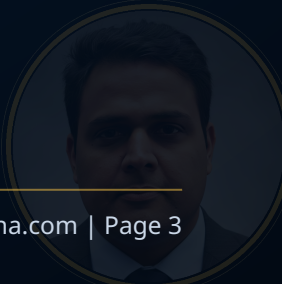

PROMISE

Our Core Promise

A federation that works beyond elections and beyond convention weekend.

- We will choose unity over division, transparency over confusion, service over politics and progress over stagnation.
- FeTNA must be a cultural home, a support system for Sangams, a safety net for families and a platform for the next generation.
- Our leadership will be team-centered. We will share responsibility, invite capable people to serve and build institutions that outlast any one person.
- We will make FeTNA more useful to Tamil families year-round while preserving the Tamil identity that brought us together.

One community. One voice. One future.

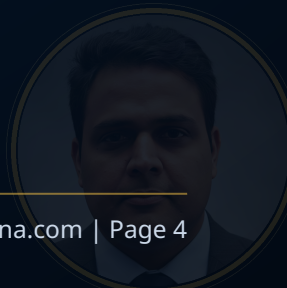

PRIORITIES

Top Priorities for 2026-2028

A focused agenda with measurable value for delegates, life members and Sangams.

- OneFeTNA Bridge Culture: post-election healing, inclusion and collaboration across groups.
- Transparent Governance: timely updates, clear decisions, financial discipline and accountable communication.
- Sangams First: year-round support through a Sangam Success Desk, resources, roundtables and regional collaboration.
- Next Generation: Tamil education, youth leadership, internships, careers, AI, innovation and entrepreneurship.
- Tamil ER and Family Support: immigration, visa issues, layoffs, mental health, emergencies and trusted referrals.
- Future-ready FeTNA: governance modernization, technology systems, Knowledge Bank, Impact Dashboard and annual community reporting.

We will focus on work that creates lasting value.

UNITY

Bridge Gaps, Build Trust

The heart of OneFeTNA.

- We will make unity a working practice, not just a campaign slogan.
- We will include capable volunteers from different teams, regions and Sangams in meaningful service roles.
- We will encourage respectful disagreement without personal division.
- We will build a post-election culture where competition ends and service begins.
- We will protect FeTNA from factional thinking so our community can work with shared purpose.

We are stronger when we collaborate and weaker when we divide.

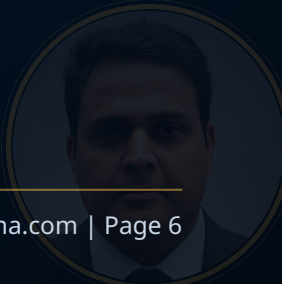

GOVERNANCE

Transparent and Trustworthy Governance

Trust grows when members understand what is happening and why.

- We will strengthen timely communication with General Body members, delegates, life members and Sangam leaders.
- We will make committee structures, responsibilities and contacts easier to understand and access.
- We will improve documentation of major decisions, financial processes and organizational progress.
- We will create respectful response channels for questions, concerns and constructive feedback.
- We will treat transparency as a culture, not a slogan.

Clear process. Clear communication. Clear accountability.

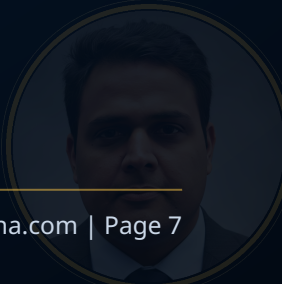

SANGAMS

Sangams First, Year-Round Support

FeTNA grows only when member Sangams grow.

- We will create a Sangam Success Desk to support member Sangams throughout the year.
- We will share templates for bylaws, finance, sponsorship, event planning, volunteer management and communications.
- We will build a resource network of speakers, artists, teachers, professionals and community leaders.
- We will organize regular Sangam Leadership Roundtables to listen, learn and solve common challenges.
- We will support smaller and newer Sangams with the same respect as established Sangams.

Every Sangam should feel heard, supported and connected.

REGIONS

Regional OneFeTNA Collaboration

OneFeTNA must be built Sangam by Sangam, region by region.

- We will create Regional OneFeTNA Forums where nearby Sangams can collaborate on youth, Tamil education, culture, service and professional programs.
- We will encourage shared regional calendars, volunteer networks and cross-Sangam program planning.
- We will use regional collaboration to reduce duplication, share successful ideas and give every area a stronger voice.
- We will explore practical regional coordination without creating unnecessary bureaucracy.
- We will bring FeTNA closer to local Sangams instead of keeping FeTNA distant from everyday community work.

A connected federation must listen locally and act collectively.

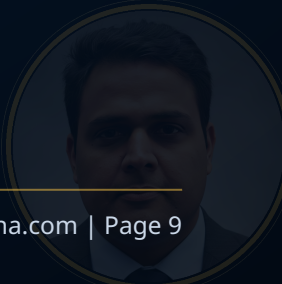

NEXTGEN

Youth, Tamil Education and NextGen Leadership

Our children should not only participate, they should lead.

- We will build a NextGen Tamil Leadership Council for students, young professionals, entrepreneurs, artists and emerging volunteers.
- We will strengthen Tamil school collaboration, teacher support, student recognition and Seal of Biliteracy awareness.
- We will create mentorship pathways for college guidance, internships, scholarships, public speaking and leadership development.
- We will connect Tamil identity with future opportunity so our youth can be proud, skilled and confident.
- We will help youth see FeTNA not only as their parents' organization, but as their own platform.

FeTNA must become a platform the next generation can call their own.

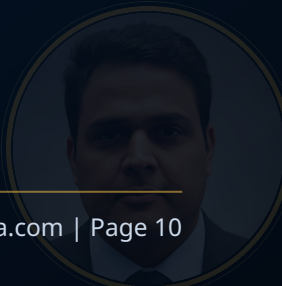

LEADERSHIP

Women Leadership and Family Support

A stronger FeTNA must recognize, respect and elevate women's leadership.

- We will create meaningful spaces for women to lead, mentor, support and build across FeTNA committees and initiatives.
- We will encourage mentorship circles for students, professionals, entrepreneurs, artists, teachers and community volunteers.
- We will support family wellbeing programs that address stress, safety, caregiving, student pressure and community needs.
- We will recognize women volunteers, organizers, teachers, artists and leaders who quietly carry much of our community work.
- We will make women's leadership a real support system, not a symbolic promise.

When women lead, families, Sangams and FeTNA grow stronger.

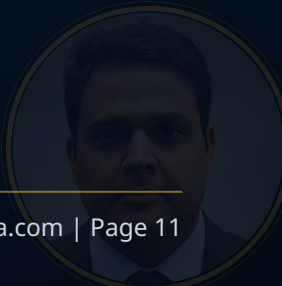

TAMIL ER

Tamil ER, Immigration and Family Safety Net

A strong community supports families during difficult times.

- We will strengthen Tamil ER as a trusted connection point for emergencies, student distress, medical needs, travel issues and family crisis situations.
- We will support immigration awareness through attorney webinars, resource guides and qualified professional referrals.
- We will create awareness around visa appointment delays, H-1B uncertainty, domestic renewal expansion and green card backlog reform.
- We will help families understand how congressional casework and civic advocacy can be used in delayed or urgent cases.
- We will build mental health and family wellbeing awareness, especially around student stress, job loss and immigration anxiety.

Cultural heritage is our root. Community security is our responsibility.

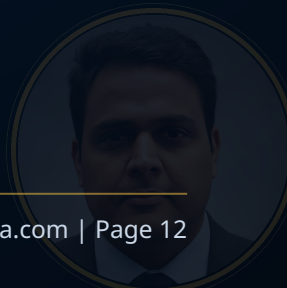

GROWTH

Careers, Innovation and Professional Growth

Let Tamil success become Tamil support.

- We will build a Tamil Professional and Entrepreneur Network connecting mentors, executives, founders, investors, doctors, lawyers, educators, technologists, artists and public service leaders.
- We will encourage resume support, interview preparation, referrals, internships, business mentoring and career panels.
- We will launch AI, technology, data, media, entrepreneurship and future-skills programs for youth and young professionals.
- We will work toward a Tamil Global Innovation and Entrepreneurship Summit to bring opportunity, ideas and investment together.
- We will pursue partnerships with universities, companies, nonprofits and professional networks to create real community value.

FeTNA should connect talent, opportunity and community service.

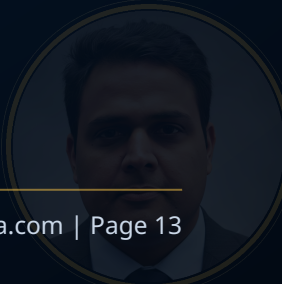

HERITAGE

Tamil Heritage, Arts and Martial Traditions

Preserve, teach and propagate what is truly ours.

- We will create a Tamil Arts Transmission Program to help pass Tamil language, literature, music, dance, drama, folk arts, Parai, Silambam and heritage arts to future generations.
- We will create a Tamil Martial Arts Heritage Initiative to bring Adimurai, Varmakalai, Kuthuvarisai, Silambam and related Tamil martial traditions to younger generations.
- We will organize workshops, demonstrations, training camps and convention showcases through qualified Aasans, teachers and practitioners.
- We will document the history, philosophy, discipline and Tamil origins of these arts so our contributions receive proper recognition.
- We will promote Tamil arts globally as Tamil heritage, not merely as generic cultural or martial forms.

Tamil heritage must live in practice, not only in memory.

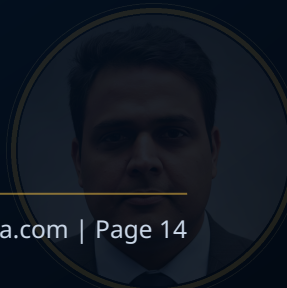

MODERNIZE

Convention, Finance and Governance Modernization

FeTNA's structure must match FeTNA's scale.

- We will strengthen convention planning with clearer timelines, fair volunteer opportunities, better documentation, post-convention reports and reusable playbooks.
- We will promote responsible budgeting, expense approval discipline, financial SOPs, audit readiness and long-term reserve planning.
- We will initiate governance modernization to clarify the General Body, Board, Executive Committee, committees and operational teams.
- We will explore practical functional roles, regional coordination and succession planning without unnecessary bureaucracy.
- We will build systems that help each future board start stronger instead of starting from zero.

A modern FeTNA needs clarity, accountability and continuity.

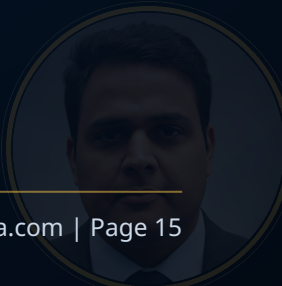

SYSTEMS

Technology, Knowledge Bank and Impact Dashboard

Systems should continue beyond any one board.

- We will work toward a unified digital FeTNA platform connecting Sangams, delegates, volunteers, youth, professionals, artists, donors and families.
- We will build a FeTNA Knowledge Bank with playbooks, templates, event checklists, SOPs, historical archives and lessons learned.
- We will improve digital communication, newsletters, website updates, committee workflows, data privacy and records management.
- We will explore an Impact Dashboard to show programs completed, volunteers engaged and outcomes delivered.
- We will publish a State of Tamil America annual community report highlighting Sangam activity, Tamil education, youth achievements, community needs and FeTNA's measurable impact.

Transparency should include progress people can see.

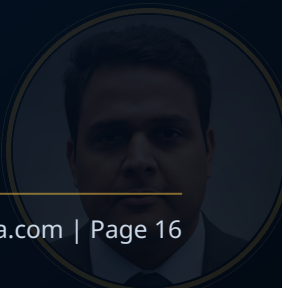

GLOBAL

Global Tamil Connections

North American Tamils are part of a larger global Tamil family.

- We will strengthen FeTNA as a bridge between North American Tamils and global Tamil communities.
- We will explore partnerships in culture, education, entrepreneurship, public service, research and community advocacy.
- We will elevate North American Tamil achievements while staying connected to global Tamil causes aligned with FeTNA's mission.
- We will create opportunities for youth, professionals, artists and scholars to collaborate across borders.
- We will represent Tamil identity with dignity, confidence and unity on larger platforms.

Strong roots in North America. Strong connections across the world.

OneFeTNA Manifesto

2026-2028 | One Vision. One Community.

VOTE

Our Final Commitment

OneFeTNA is a promise to serve together.

- We will build a FeTNA that bridges gaps, heals divisions, supports every Sangam and respects every volunteer.
- We will empower youth, strengthen Tamil education, elevate women's leadership and protect families in crisis.
- We will preserve Tamil language, arts, history and ancient martial traditions with pride and responsibility.
- We will modernize governance, improve financial discipline and build systems for long-term continuity.
- We respectfully ask for your support and vote to build a stronger, transparent, inclusive and future-ready FeTNA.

Stronger Together. Weaker Divided. OneFeTNA.
